Erratum to “Milk fatty acids in dairy cows fed whole crude linseed, extruded linseed, or linseed oil, and their relationship with methane output” (J. Dairy Sci. 92:5199–5211)

Y. Chilliard, C. Martin, J. Rouel, and M. Doreau

On page 5204 (left column, last line), the sign of the coefficient should be changed [– 80.1 (± 60.9) should be + 80.1 (± 60.9)]. The corrected equation should read as follows:

$$\begin{aligned} \text{CH}_4 \text{ output (g/d)} = & -100.8 (\pm 22.0) \times \text{milk} \\ & \textit{trans}\text{-}16 + \textit{cis}\text{-}14 \text{ 18:1 (\% of total FA)} + 6.78 (\pm 1.75) \\ & \times \text{milk 16:0 (\% of total FA)} + 13.1 (\pm 3.86) \\ & \times \text{forage intake (kg of DM/d)} + 80.1 (\pm 60.9). \end{aligned}$$

The authors apologize for this error.
