Erratum to “Associations between novel single nucleotide polymorphisms in the *Bos taurus* growth hormone gene and performance traits in Holstein-Friesian dairy cattle” (J. Dairy Sci. 93:5959–5969)

M. P. Mullen, D. P. Berry, D. J. Howard, M. G. Diskin, C. O. Lynch, E. W. Berkowicz, D. A. Magee, D. E. MacHugh, and S. M. Waters

On page 5962, in the section Associations with Carcass and Body Size Traits, the sixth sentence should read (correction in bold): “One SNP, *GH32*, was associated ($P < 0.05$) with carcass conformation located approximately 30 kb upstream in the **5′** UTR of *GH1*.”

The authors regret the error.

Mullen, M. P., D. P. Berry, D. J. Howard, M. G. Diskin, C. O. Lynch, E. W. Berkowicz, D. A. Magee, D. E. MacHugh, and S. M. Waters. 2010. Associations between novel single nucleotide polymorphisms in the *Bos taurus* growth hormone gene and performance traits in Holstein-Friesian dairy cattle. J. Dairy Sci. 93(12):5959–5969.
