Join us for JAM 2014 in Kansas City, Missouri

Make your plans now to attend the 2014 Joint Annual Meeting (JAM) in Kansas City, Missouri. The 2014 JAM will be held July 20–24 (Sunday through Thursday). The opening session will be held on Sunday evening, July 20; sessions will kick off Monday morning, July 21, and run through noon on Thursday, July 24. Registration is now open (https://www.asas.org/meetings/jam2014/registration) and you can also book your hotel rooms online. You can find the latest information on the meeting at the official meeting website: https://www.asas.org/meetings/jam2014/home.

Positions Available . . .

The deadline for the submission of position announcements for publication in the Journal of Dairy Science is the 25th day of the month, two months preceding the month of issue. For example, ads submitted by May 25 will be printed in the July issue of the journal.

Fees for ads are based on membership in the American Dairy Science Association or the American Society of Animal Science. For members, the flat fee is $150; for others, $250. We do not accept display ads. Ads from agencies are not commissionable.

Position announcements should be electronically submitted, using the form on the Federation of Animal Science Societies (FASS) Web site, http://www.fass.org/job.asp, for publication in the printed version of the journal and online at the FASS Job Resource Center. Ads that appear in the printed version will automatically be posted online at no extra charge. Ads that are received past the deadline will appear only on the Web site.

If electronic submission is impossible, ads can be e-mailed to fass@assochq.org. Ads should be formatted as a single paragraph; complete sentences should be used. Advertisers will receive an invoice after the ad is posted or published; those who meet print publication deadline will receive a tearsheet with the invoice.

For more job placement announcements, please see the FASS Job Resource Center at www.fass.org/

- Research Associate in Animal Nutrition

A research associate position is available for a period of 3 years (with the possibility of extension to a permanent position upon positive evaluation) at the Institute of Animal Nutrition and Functional Plant Compounds, University of Veterinary Medicine Vienna, Austria. The successful applicant is expected to play a crucial role in strengthening the Animal Nutrition team’s research capacities. He/she will work together with other scientists to make a significant contribution to the success of ongoing research activities. The research program is at the interface of nutrition and gut health/microbiology of livestock (ruminants, poultry, and pigs). The incumbent will also lead a small research team of graduate and undergraduate students, qualifying the successful candidate for senior research and academic positions.

Major duties include:

- Organization and carrying out of the ongoing research projects
- Co-supervision of PhD students
- Preparation of research grant proposals, research reports, and publication of the research results
- Teaching at the undergraduate level

Desired qualifications:

- PhD in animal nutrition, animal health, animal physiology, nutritional sciences, or related disciplines
- Experience in conducting animal trials
- Profound knowledge of gut physiology and microbiology
- Experience in publishing in peer-reviewed journals and in writing research proposals
- Proficiency in using modern analytical methods (e.g. methods used in molecular microbiology, gut physiology, or mucosal immunology)
- Excellent organizational skills and teamwork orientation

A competitive salary with an attractive package of health, social security, and other benefits will be offered to the successful candidate.

Potential starting date is July 1, 2014 (negotiable). Qualified applicants should send their expression of interest, curriculum vitae, outline of background/experience that qualifies the applicant for this position, names of 2 referees with contact information, and their transcripts to Qendrim.Zebeli@vetmeduni.ac.at.

The University of Veterinary Medicine is based on the city of Vienna, a city that is ranked among the top places worldwide in terms of standards of living. Being famous for its concert sites, opera houses, theatres, museums, and coffee shops, Vienna also provides great outdoor activities, such as sailing on the Neusiedler See, ice skating, skiing, biking, and hiking in the Viennese woods and the nearby Alps. The Vienna area is also an exceptional and highly international research environment. Four major life science universities and various research institutes provide a dynamic and interactive setting for world-class research.
Sales Director Ruminant/Dairy – Kemin Animal Nutrition and Health–China

The sales director, an executive-level position, will report directly to the president of Kemin–China. The position is responsible for growing the Kemin Animal Nutrition and Health–China ruminant sales on an annual basis by developing new markets and increasing sales in existing markets for our dairy nutrition ingredients. The incumbent will be key in implementing new technologies and quickly growing the sales team. The ideal candidate will have a bachelor’s or master’s degree in animal science, with higher level education or experience in ruminant or dairy nutrition from a US or European university. The candidate must be fluent in Mandarin (written and verbal). Commercial experience in the dairy industry and a solid understanding of modern dairy practices in China and the United States/Europe is required. The position is located in China with some flexibility on location, but ideally in Shanghai. Travel within China approximately 40-60% of the time; some international travel is required. For the full job description and to apply online visit http://www.kemin.com/about/careers. Kemin is an equal-opportunity employer.
