***Journal of Dairy Science*® Announces two new article collections
Free collections on stocking density for dairy cattle and lactic acid bacteria**

Champaign, IL, May 31, 2016 –

STOCKING DENSITY COLLECTION

As a service to all those who work with dairy cattle, a collection of articles on the science of stocking density has been compiled by **Cassandra B. Tucker**, University of California, Davis; from articles published in the *Journal of Dairy Science (JDS)*. This collection includes 10 articles from *JDS*, published between 2006 and 2015. Topics addressed include effects of stocking density on animal behavior, health, hygiene, and biological responses. This special set of articles is freely available online at <http://www.journalofdairyscience.org/stocking-density>.

LACTIC ACID BACTERIA

A collection of *JDS* articles on lactic acid bacteria, focusing on selective culturing, isolation, and general characteristics, has been compiled by **Matthew Renschler** and **John L. McKillip**, Ball State University, Muncie, Indiana. This collection includes 30 articles published between 1962 and 2016. The articles from *JDS* are hosted by Elsevier and freely available at <http://www.journalofdairyscience.org/lacticacid>.

The *Journal of Dairy Science* is committed to publishing scientific research that informs industry and maintains collections on topics that are of special interest to the dairy community. For more information, please visit the journal website, <http://www.journalofdairyscience.org/>.

ABOUT JOURNAL OF DAIRY SCIENCE®

Journal of Dairy Science (JDS), official journal of the American Dairy Science Association®, is co-published by Elsevier and FASS Inc. for the American Dairy Science Association. It is the leading general dairy research journal in the world. *JDS* readers represent education, industry, and government agencies in more than 70 countries with interests in biochemistry, breeding, economics, engineering, environment, food science, genetics, microbiology, nutrition, pathology, physiology, processing, public health, quality assurance, and sanitation. *JDS* has a 5-year Impact Factor of 3.071 according to the 2014 Journal Citation Reports®, published by Thomson Reuters. www.journalofdairyscience.org

ABOUT THE AMERICAN DAIRY SCIENCE ASSOCIATION (ADSA)

The American Dairy Science Association (ADSA) is an international organization of educators, scientists, and industry representatives who are committed to advancing the dairy industry and keenly aware of the vital role the dairy sciences play in fulfilling the economic, nutritive, and health requirements of the world's population. It provides leadership in scientific and technical support to sustain and grow the global dairy industry through generation, dissemination, and exchange of information and services. Together, ADSA members have discovered new methods and technologies that have revolutionized the dairy industry. www.adsa.org

ABOUT ELSEVIER

Elsevier (www.elsevier.com) is a world-leading provider of information solutions that enhance the performance of science, health, and technology professionals, empowering them to make better decisions, deliver better care, and sometimes make groundbreaking discoveries that advance the boundaries of knowledge and human progress. Elsevier provides web-based, digital solutions — among them ScienceDirect (www.sciencedirect.com), Scopus (www.scopus.com), Elsevier Research Intelligence (www.elsevier.com/research-intelligence), and ClinicalKey (www.clinicalkey.com) — and publishes over 2,500 journals, including *The Lancet* (www.thelancet.com) and *Cell* (www.cell.com), and more than 33,000 book titles, including a number of iconic reference works. Elsevier is part of RELX Group (www.relxgroup.com), a world-leading provider of information and analytics for professional and business customers across industries. www.elsevier.com
